

Radiotherapy consent form for oesophageal cancer

This form should only be used if the patient is over 16 years old and has capacity to give consent. If the patient does not legally have capacity please use an appropriate alternative consent form from your hospital.

Patient details

Patient name:

Date of birth:

Patient unique identifier:

Name of hospital:

Responsible consultant oncologist or consultant therapeutic radiographer:

Special requirements: eg, transport, interpreter, assistance

Details of radiotherapy

Radiotherapy type:	External beam radiotherapy
Site:	Oesophagus
Aim of treatment: (Tick as appropriate)	☐ Curative – to give you the best chance of being cured ☐ Neo-adjuvant – treatment given before surgery ☐ Adjuvant – treatment given after surgery to reduce the risk of cancer coming back ☐ Disease control/palliative – to improve your symptoms and/or help you live longer but not to cure your cancer
Concurrent systemic anti-cancer therapy: (Tick as appropriate)	☐ Yes with _____ ☐ No (A separate consent form will cover the possible side-effects of this treatment)

You may have questions before starting, during or after your radiotherapy.

Contact details are provided here for any further queries, concerns or if you would like to discuss your treatment further.

Patient name:

Patient unique identifier:

Possible early or short-term side-effects

Start during radiotherapy or shortly after completing radiotherapy and usually resolve within two to six months of finishing radiotherapy. Frequencies are approximate.

Expected 50%–100% 	☐ Tiredness ☐ Skin soreness, itching and colour changes in treatment area – white/lighter skin: pink, red, darker than surrounding area; brown skin: maroon or darker than surrounding area; black skin: darker than surrounding area, yellow/purple/grey colour changes ☐ Increased saliva or mucous production ☐ Loss of appetite which may lead to weight loss ☐ Inflammation of the oesophagus which may cause pain and/or difficulty with swallowing ☐ Indigestion or heartburn ☐ Nausea or vomiting ☐ Abdominal discomfort or bloating
Common 10%–50% 	☐ Hair loss in treatment area ☐ Inflammation of the lungs – causing cough or shortness of breath ☐ Feeding via a tube into the stomach/small intestine ☐ Admission to hospital for control of side-effects ☐ Sore mouth or throat
Less common Less than 10% 	☐ Mouth ulcers ☐ Change in voice
Rare Less than 1% 	☐ Risk of an oesophageal fistula – abnormal connection between the oesophagus and airways ☐ Pneumonia
Specific risks to you from your treatment	
I confirm that I have had the above side-effects explained.

Patient name:

Patient unique identifier:

Possible late or long-term side-effects

May happen many months or years after radiotherapy and may be permanent.

Frequencies are approximate.

Expected 50%–100% 	
Common 10%–50% 	☐ Ongoing fatigue ☐ Oesophageal stricture which may require endoscopic treatment ☐ Oesophageal dysmotility causing a change in swallow ☐ Fibrosis (scarring) of the underlying lung which can cause breathlessness, cough or changes on X-ray
Less common Less than 10% 	☐ Hypothyroidism – a hormone deficiency, this may require you to take medications ☐ Risk of damage to the heart – risk depends on the position of the tumour in the oesophagus ☐ Skin changes in treatment area including: – Usually lighter or darker for any skin tone – Scarring – Telangiectasia – small visible blood vessels which look like spidery marks
Rare Less than 1% 	☐ Oesophageal or gastric ulceration or perforation (tear) which may require surgery ☐ Oesophageal fistulation – abnormal connection between the oesophagus and airways ☐ Long-term need for feeding via a tube ☐ Bleeding which may require endoscopic treatment or surgery ☐ Myelitis – inflammation of nerves which may cause a change in muscle power or sensation ☐ Risk of rib/vertebral fracture ☐ Hyposplenism – the spleen no longer functions which lowers immunity and may require additional vaccinations and prophylactic antibiotics ☐ Long-term decline in kidney function ☐ A different cancer in the treatment area ☐ Risk to life
Specific risks to you from your treatment	
	I confirm that I have had the above side-effects explained. Patient initials

Statement of health professional

(to be filled in by health professional with appropriate knowledge of proposed procedure)

- I have discussed what the treatment is likely to involve, the intended aims and side-effects of this treatment.
- I have also discussed the benefits and risks of any available alternative treatments including no treatment.
- I have discussed any particular concerns of this patient.

Patient information leaflet provided: ☐ Yes / ☐ No – Details:

Copy of consent form accepted by patient: ☐ Yes / ☐ No

Job title:

Statement of patient

- I have had the aims and possible side effects of treatment explained to me and the opportunity to discuss alternative treatment and I agree to the course of treatment described on this form.
- I understand that a guarantee cannot be given that a particular person will perform the radiotherapy. The person will, however, have appropriate expertise.
- I have been told about additional procedures which are necessary prior to treatment or may become necessary during my treatment. This may include permanent skin marks and photographs to help with treatment planning and identification.
- I agree that information collected during my treatment, including images and my health records may be used for education, audit and research. All information will be anonymised. I am aware I can withdraw consent at anytime.

Tick if relevant

- ☐ I confirm that there is no risk that I could be pregnant.
- ☐ I understand that I should not become pregnant during treatment.

Note: if there is any possibility of you being pregnant you must tell your hospital doctor/health professional before your treatment as this can cause significant harm to an unborn fetus. Testosterone and other hormone treatments are not contraception.

- ☐ I understand that if I were to continue to smoke it could have a significant impact on the side-effects I experience and the efficacy of my treatment.

- ☐ I do not have a pacemaker and/or implantable cardioverter defibrillator (ICD).

or

- ☐ I have a pacemaker and/or implantable cardioverter defibrillator (ICD) and I have had the risks associated with this explained to me.
